Education

Vellore Institute of Technology

2025 – 2027

Master of Computer Applications (MCA)

CGPA: 8.2 | Full-time

Himachal Pradesh University (HPU)

2021 – 2024

Bachelor of Computer Applications (BCA)

CGPA: 7.39 | Full-time

Projects

Document Intelligence Platform (docint)

2026

Python, FastAPI, PostgreSQL, Gemini Vision, Groq | Assessment Project

- Built a FastAPI pipeline that extracts structured data from invoices and financial statements (PDF/JPG/PNG) using Gemini Vision and Groq LLMs, with automatic provider fallback.
- Designed deterministic Python validation (independent of any LLM) for financial reconciliation across invoices, balance sheets, P&L and cash-flow statements.
- Added database persistence, a 35-test suite, and Docker deployment on Railway.

GitMind – AI-Powered GitHub Analytics Platform

2026

Java, Spring Boot, PostgreSQL, React.js | Personal Project

- Designed a RESTful backend using Java 21 and Spring Boot with a layered Controller-Service-Repository architecture.
- Integrated GitHub REST/GraphQL APIs and the Google Gemini API to generate AI-based developer insights from repository and contribution data.
- Implemented PostgreSQL persistence with Spring Data JPA and MapStruct, and built a responsive React.js frontend deployed on Vercel.

Meeting Summarizer

2026

Java, Spring Boot, React, MySQL, Deepgram, Gemini | Personal Project

- Developed a Spring Boot and React app that transcribes meeting audio via Deepgram and generates summaries, decisions, and action items using Google Gemini, with strict anti-hallucination prompting.
- Designed a layered backend (controller/service/repository) with centralized exception handling and structured JSON error responses.
- Persisted transcripts and results to MySQL via Spring Data JPA, exposing a REST API to process and retrieve past meetings.

Technical Skills

Languages: Java, Python

AI/ML Concepts: LLMs, Tokenization, Transformers, ML and AI Fundamentals

Backend: Core Java, REST APIs, Spring Boot

Databases: MySQL, PostgreSQL

Tools: Git, GitHub, Postman, Maven

Frontend: HTML, CSS, JavaScript, React.js

Extra Curricular

Health Hackathon Participation

2025

VIT Bhopal & Johns Hopkins Health Hackathon
